CRAWFORD—CHAMBERS.

Mr. Harry Crawford and Miss Mary Chambers Married Yesterday.

At the home of Rev. Dr. John Harbour yesterday afternoon at 2 o'clock were united in holy matrimony Mr. Harry Crawford and Miss Mary Chambers.

The Minister used a pretty worded ceremony, which was impressive and appropriate. The bride is the daughter of Mr. and Mrs. Henry Crawford of the West End of our city. She is a practical engineer on the steamer City of Louisville, a frugal and energetic young man who is well balanced by that most excellent attribute, common sense.

His parents, daughters of Mr. and Mrs. George W. Chambers of Clifton. She was in a beautiful organdie, her hair exquisitely arranged, and with a great bunch of roses she looked the very picture of a dainty, happy bride.

Mrs. Crawford is a beautiful girl full of decided character, and has been well trained for the duties of wifehood.

Miss Gertrude Tolles and Mr. Joseph Tolles were the attendants.

Mr. and Mrs. Crawford left at once for Buffalo to enjoy a honeymoon amid the love-tinted Pan-American Exposition buildings.

Upon their return they will begin housekeeping with Happiness as their servant.

ISN'T CHARLIE BRONSTON a "daisy" of a prophet? He actually told what President ROOSEVELT was going to do four days after it had been done!

THE reason, perhaps, that CZOGOZOFF's plea of "Guilt" was not accepted by the Court at Buffalo was because his statement was unworthy of belief unless supported by proof.

RESTRICTION of immigration will be a popular cause hereafter. Restriction of immigration is prevention of assassination. This is not a free country for those who come here to murder freedom.

It's a cool day in August when your jacking lawyer can't find an argument. Some fellow has just discovered that TEDDY ROOSEVELT is not President of the United States. He says there are two ways only by which a man may become President—an election by the people, or Congressional action under certain conditions; and that upon the death of a President, his duties simply devolve upon the Vice-President, without the passing of the title. Well, just let that jackass do something that calls for Presidential intervention, and "TEDDY" will make him think he's President, anyway.

THE New York Journal has been excluded from the files of the New York Maritime Exchange by the unanimous action of the Floor Committee and with the approval of the Executive Committee. The action excluding the paper was taken last Monday and the paper has not been on file there since. It is the first instance in the history of the Maritime Association where a paper once admitted to its files has been so disposed of. There are 1,100 members in the Association, and last week letters poured in from many of those to the Superintendent asking that in the interest of good government the paper be taken from the files. The matter was referred to the Floor Committee, with the result that the exclusion of the paper was ordered on the ground that "its general course was subversive of public order and its doctrine dangerous to the welfare of the Republic." Keep the ball rolling. There is no place in this country for Anarchists or Anarchistic newspapers like HEARTS'.

Born to Mr. and Mrs. C. W. Nesbit of Mt. Sterling, a daughter, Mr. Nesbit is a brother to Messrs. T. Y. and E. H. Nesbit of this city.

A man in a neighboring town who takes a city paper in preference to a country paper, and who, moreover, for his money, was attracted to it, an advertisement of a patent fire escape, which would be forwarded upon the receipt of one dollar. He sent the cash and in a few days received a copy of the Testament.

Mrs. Love Winter, aged about 21 years, died Wednesday morning at her home three miles West of Minerva, of injuries received in a fall from a horse two weeks ago. While driving near Argenta the harness on the horse broke and it ran off. One of Mrs. Winter's arms was broken and she was internally injured. She was a sister of William Winter, who resides near Dover.

SENSIBLE SUGGESTIONS.

A Topic of Great Interest to All Our Citizens.

Mayville's Cemetery is by nature one of the most beautiful spots to be found anywhere. It is a quiet, peaceful place, and in tributes of respect, massive, costly and enduring; but what man could work for its adornment, through the spending of a little money.

How much to the place it would add if the owners would make a small lake, have water mains run throughout the grounds, erect a mortuary chapel with a suitable name, have handsome gateways at the entrance and enforce laws looking to more symmetry by those who own lots there and by the general public which frequents the sacred spot on Sabbaths and other days. It would not be difficult to find the means of outward living and to please the eye through beautiful surroundings, so, to indulge these, these suggestions are written to the Honorable Boards which govern the last resting place of most of us when "Life's fitful fever is past, and man lies down for that last sleep, from earthly suspense free, to awake in the morn of Eternity."

GRAND SUCCESS.

Christian Church Convention Held at Germantown Last Week.

The Mason County Christian Co-Operation, held at Germantown, was quite successful and interesting.

Reports from the Churches show a healthy growth in numbers and other wise.

A Personage has been completed at Washington and Mr. Buckingham is located there for the whole time.

Sardis has been revived and regular preaching secured.

Benjamin L. Smith, Secretary of Home Missions, gave a brief address at Germantown and one at Brooklyn, showing remarkable prosperity during the last five years.

A debt of \$8,000 has been paid off, \$3,000 permanent funds secured and a largely increased work being done.

The missionaries have increased from 47 to 146, and the membership in the Union has grown from about one million in 1881 to 1,163,000 in 1900, having gained 30,581 during 1900.

Burris A. Jenkins, the newly elected President of Kentucky University, who was formally inducted into office Wednesday, gave a most thoughtful and thorough address on education, claiming that the development of the highest ideals in the education of women is the proper object of education.

On account of the very busy season with the farmers, the ladies were largely in the majority, and added much to the convention in several respects. Mrs. Fannie Day of Augusta gave an interesting paper on the Home Department of the University.

Miss Nellie Greenhow eloquently and beautifully represented Jesus as the Ideal and Primary Teacher.

The next Convention will be held at Germantown on Wednesday and Thursday, after fourth Sunday in October, 1902.

The Bracken Chronicle says that on Friday, September 13th, just thirty years after the advent of a baby girl in the family of John Cook of that country, his wife presented him with another healthy, hearty baby babe. This is the third child, all born on Friday night, and the two last on September 13th, thirteen years apart.

BRAIN-FOOD NONSENSE.

Another ridiculous food has been heralded by the most competent authorities. They have depicted the silly notion that one kind of food is better for the brain, another for the heart, another for the lungs. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your diet may be, it will not give you a good digestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking a correct diet, and by taking a correct amount of medicine of the healthy millions. A few doses of indigestion, stimulate the liver to healthy action, and you are well on the way to health and vigor. You can get Dr. G. Green's special Almanac.

DON'T TOBACCO SPIT AND SMOKE YOUR LIFESPAW. You can be cured of any form of tobacco easily, be made well, strong, magnetic, full of life and vigor by taking NO-TO-SMOKE. Over \$100,000 have been given to the cause. Write for list and advice. Address STERLING REMEDY CO., Chicago or New York. 437

TAKEN TO AUBURN.

Czolgosz Will Be Electrocuted in Prison There During Week Beginning October 23.

PRISONER SPOKE BEFORE SENTENCE.

"There Was No One Else But Me," He Said in a Whisper, Which Was Repeated by His Counsel.

No One Else Told Him to Commit the Crime and Doing the Deed.

Czolgosz Collapses.

Auburn, N. Y., Sept. 27.—Czolgosz, the assassin of President McKinley, reached the prison at 3 o'clock Friday morning. On entering the prison he collapsed completely.

Buffalo, Sept. 27.—Sheriff Caldwell and 16 men left at 10:06 p. m. Thursday with Czolgosz in a special car attached to the rear of the second section of the 9:30 train on the New York Central. The train is due in Buffalo at 2:12 this morning, but being half an hour late, may not reach there until later.

Leon F. Czolgosz, the assassin of President McKinley, was Thursday afternoon sentenced to be electrocuted in Auburn prison during the week beginning October 28, 1901. Before sentence was passed the assassin walked a aisle to the dock, but could not get his voice above a whisper, and his words were repeated to the court by his counsel.

"There was no one else but me," the prisoner said in a whisper. "No one else told me to do it, and no one else made me do it. I was not told anything about the crime, and I never thought anything about it until a couple of days before I committed the crime."

THE COURT OF INQUIRY.

It Was in Session Only an Hour and Three-Quarters, Adjourning at 12:45 Thursday.

Washington, Sept. 27.—The Schley court of inquiry adjourned for only an hour and three quarters Thursday, adjourning at 12:45 in order to permit its members and others engaged there to attend the funeral of Judge Wilson, late chief counsel for Adam Schley.

Capt. Wise concluded his testimony, Adam Schley made a brief statement, and Leest, Spencer S. Wood, who commanded the dispatch boat Dutton during the Spanish war, began his testimony. Machinist Gray, who was in charge of the starboard engines on the day of the battle of Santiago, also testified briefly. He said that on the day of the battle the engines were stopped and the machinery reversed. Capt. Wise was questioned at considerable length as to what he had done before the arrival of the flying squadron off Santiago towards locate Cervera's fleet in the harbor. He said that while he had some knowledge of the movements of the Spanish fleet, he had been compelled to communicate his knowledge to Adam Schley, through Capt. Sigsbee, not considering it necessary to make direct communication with the commander-in-chief. Lieut. Wood gave his testimony of his delivery of dispatches from the admiral to the admiral on the 22d of May, and the admiral's reply on Cinfuegos. He said Schley seemed very nervous and especially anxious to know what Sampson's intentions were. He had not concluded his testimony when the court adjourned for the day.

THE COURT ROOM WAS CROWDED.
Although the time announced for the convening of court of inquiry at 2 o'clock, every seat in the room of state, and room were occupied before 12:30, and scores were clambering outside for admission. The doors were locked and no more were admitted to the room.

The prisoner was brought into the room at 1:15. Five minutes later Justice White took his seat on the bench. The prisoner was asked if he had any reason to give why the sentence of death should not be pronounced against him. He replied: "I have nothing to say at all."

Clerk Fisher swore the prisoner, and his record was taken by District Attorney as follows:

TERRIFIC EXPLOSION.

Several Men Killed and Seven Injured in an Oil Tank of the Newark, N. J., Gas Co.

New York, Sept. 27.—Six men and possibly seven were killed and seven injured by the explosion Thursday of an oil tank of the Essex and Hudson Gas Co., at Newark, N. J. Many witnesses say there is a hole in the river, as they saw it hurled high in the air and thrown in that direction.

The tank which exploded was one of a number of large steel tanks which was undergoing its periodical cleaning, it having been emptied of its oil in the morning. The tank was 20 feet deep, and two men entered through the manhole without taking precaution of having ropes tied about them. They were immediately thrown into the water. Foreman Newman saw this and started down after them, after shouting a warning to the other workmen in the yard. He, too, collapsed in the tank.

Nicholas Miller, a grocer nearby, had once been foreman of the works. He had been yards away and assumed charge of the rescue. Summoning others the men began with chisels to cut a large ring in the tank. It is supposed one of the chisels in striking the steel caused the emission of a spark, for instantly there was an explosion like that of a cannon and then a shock of earth. Men were thrown on the top of the tank at the time. They were swept away in all directions. Some seem to have borne the brunt of the terrific shock. They were not badly mangled, but not a bone in their frames was left unbroken, says the county physician. This must have been the blow which sent the tank into the air and the force with which they struck the ground. The tank was sent in twain and after all was over the bodies of the three men in it were taken out.

Clerk Fisher swore the prisoner, and his record was taken by District Attorney as follows:

THE Sentence.

Then Justice White passed sentence as follows:

"In taking the life of our beloved president you committed a crime which shocked and appalled the entire world. You have confessed that it was, and after learning all that at this time can be learned from the facts and circumstances of the case, 12 good jurors have pronounced you guilty and have found you guilty of murder in the first degree."

"You have said, according to the testimony of creditable witnesses and yourself that no other person aided or abetted you in the commission of this terrible act. God grant it may be so. The penalty for the crime for which you stand convicted is fixed by this statute, and it now becomes my duty to pronounce this judgment against you."

"The sentence of the court is that in the week beginning October 28, 1901, at the place, in the manner and manner prescribed by law, you suffer the punishment of death."

Clegg, Oct. 3, 1901.—George Bradshaw, the alleged anarchist who refused to march under the American flag at Oklahoma City, and came near being lynched, was released from the Guthrie jail Wednesday night on an order of the prison warden, and was made known until Thursday, to give Bradshaw plenty of time to leave the vicinity.

THE YACHT RACES.

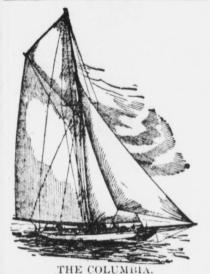

The Great International Contest For America's Cup Begun at Sandy Hook Lighthouse.

THE WIND WAS TOO LIGHT AND SHIFTY.

At the End of Five and a Half Hours the Judges Were Compelled to Declared the First Race Off.

The American Boat, Columbia, Led the Shamrock Seven Minutes and Fifteen Seconds to the Outer Mark.

New York, Sept. 27.—One of the biggest events that has put us west down to the Sandy Hook Lighthouse Thursday to witness Sir Thomas Lipton's second challenger, Shamrock and the white flyer Columbia, which successfully defended the old America's cup against his first trophy last year, again against the Columbia and the yacht supremes of 1901. But the excursion fleet returned disappointed. The great single stickers went out Thursday morning fresh for the battle, but the sea refused them a field. The wind never was more than nine, and sometimes less than three, knots, was too light and shifty to carry the contestants over the 30-mile course in the time allowed by the rules. At the end of five and a half hours, the prescribed time, the race was officially declared off, and the yachts were towed back to their berths inside Sandy Hook.
